STEEL AND STAINLESS STEEL PROFILE SYSTEMS

Steel

Thermal insulated system for windows and fixed glazings with extremely narrow profile sightlines.

The Forster unico system sets new standards in the field of heat-insulated steel windows.

The impressive slim aspects of window elements made with Forster unico combine architectural design, comfort and well-being with excellent heat and sound insulation.

In addition, they let through maximum daylight to produce pleasantly light rooms.

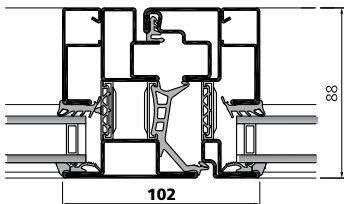

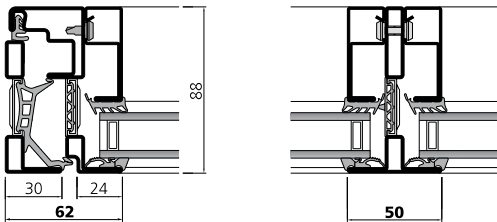

Thanks to a unique profile design made of 100% steel, the system is ideal for renovating old buildings.

Forster unico is inspired by the concept of filigree styling and combines this with present-day requirements for heat insulation and comfort.

Technical highlights

Materials

- Steel, bright
- Steel, continuously galvanized

Sightlines

- Ultra-slim aspects for window and double-vent leaves from 62 mm, fixed glazing from 30 mm

Fittings

- Concealed flush system fittings for side-hung, turn/tilt, double-vent and bottom-hung windows

Thermal insulation

- Forster unico: U_w -values under $1.4 \text{ W}/(\text{m}^2\cdot\text{K})$
- Forster unico Hi: U_w -values up to $1.0 \text{ W}/(\text{m}^2\cdot\text{K})$

Glazing

- Wet and dry glazing, vents and drains
- Glazing elements up to 60 mm (triple insulation glazing)

Surface treatment

- Stove enamelled or powder coated with no temperature restrictions

Performance characteristics

- All system applications tested according to EN 14351-1 (CE marking)
